

MICRO PLUG IN POOL

THE INDUCTION MICRO PROJECTOR

INNOVATIVE SPOTLIGHT

With Micro Plug-in-Pool, you bring a concentrate of technology into your pool. It is the result of several years of work on the miniaturization of LED lighting and induction technology

EASY WINTERING

Remove your Micro Plug-in-Pool floodlight from the baseplate, store it in a dry place over winter and put it back in the water whenever you like. This way, you can avoid unnecessary wear and tear on your projector, and keep it much longer than a standard projector!

ULTRA-QUICK CHANGEOVER

By opting for this new technology, you open new doors to pool lighting: different colors depending on the area lit in the pool, change of colors for certain occasions, in few seconds!

HOW TO INSTALL IT ?

1

Screw the base into a 1.5" outlet and connect it to the 12V AC power supply

2

Use the wrench to clip your fixture into the base.

3

Screw on by quarter turn. The projector lights up automatically once installed.

CHANGE YOUR PROJECTOR IN JUST SECONDS!

The Micro Plug-in-Pool uses the induction technology we patented for pools in 2012 with our first Plug-in-Pool plug version. This process offers ease of bulb replacement unmatched to date.

Change the color for a specific occasion and in the case of a pool with multiple lights, create patterns (country flag, party, etc.)

**EASY
WINTERING**

**QUICK
REPLACEMENT**

UN PACK DE DÉPART INNOVANT ET ÉVOLUTIF

The Micro Plug-in-Pool starter pack consists of a base and two compatible monochrome projectors (cool white and cyan) that can be changed in seconds.

The monochrome projectors have a power of 700lm equivalent to a Mini-BRIO+.
