MODULO WEB

THE CUSTOM MULTIFUNCTION PANEL

A DEDICATED DESIGN OFFICE

Our design office can help you with your project by define with you the options you need to integrate into your cabinet, according to your needs.

A CUSTOMIZED PANEL

For «standard» pools, opt for a custom-built Modulo cabinet. These enclosures integrate modular components to power, protect and control the various elements of your pool.

MULTIFONCTION

Create your own customized panel on the online configurator and choose from a wide range of available features such as a filtration pump, booster, lighting, etc.

A WIDE RANGE OF FUNCTIONS FOR YOUR PANEL

Pump protection and management
Select the characteristics of the filtration pumps to be protected and managed on the pond

Variable speed drive
Adapt your pump's filtration speed and make substantial savings

Slave pumps
Add auxiliary pumps to manage with your panel

230V feeders
Integrate protected feeders for your various equipment: regulation, electrolyser, etc.

Powering and managing projectors:
Power and remotely manage (ON/OFF, color selection) installed projectors

Heating
Powering and managing your heaters and heat pumps

Emergency shutdown
Define panel-integrated emergency stop mode and number of clogging checks

Level control
Control the water level in your pond intelligently with our range of level sensors

A PANEL DESIGNED FOR PROFESSIONALS

Made-to-measure industrial panels are specially designed for installations with special features, such as multiple pumps or numerous items of equipment to manage.

Our design office will work with you to define the options you need to integrate into your panel, according to your requirements .

Our online panel configurator lets you create, save and order panel configurations directly. Follow the progress of your order in your dedicated space.

To facilitate installation, we also offer a panel commissioning service.

ONLINE CONFIGURATOR

Directly create the configuration of your customized panel via an online interface and obtain the purchase price.

Become totally autonomous in providing your customer with a complete, professional and easy-to-install/connect electrical panel.
