

# VIGIBRIO

CONTROL THE OUTDOOR LIGHTING  
ACCORDING TO YOUR WISHES

## AN INTUITIVE CONTROLLER

With the VigiBrio controller, take outdoor lighting to a new dimension! Discover ultra-powerful spotlights that will illuminate the pool in all its colours!

## UNLIMITED SYNCHRONISATION

Simultaneously control dozens of floodlights installed in the pool or your garden. All floodlights are controlled together by a single or multiple controllers depending on your installation and allow you to choose from thousands of colours.

## ADAPTED TO YOUR WISHES

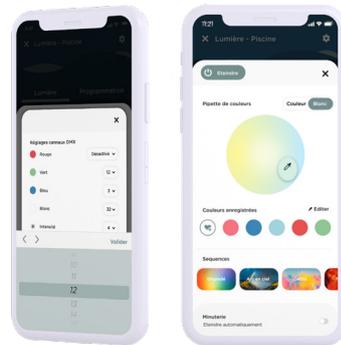

Connect your outdoor lighting to the DMX world for even more precise and complete control! Control the lights by zone or in the same colour as the garden lighting, all your wishes can be realised!

# UNLIMITED CHOICE FOR LIGHTING

With VigiBrio, control your RX3 projectors with WiFi or Bluetooth. VigiBrio is compatible with VigiPool, you can interconnect the controller with other devices of the VigiPool range for a complete control on your smartphone!

Select the desired colour or select a pre-programmed lighting sequence. Each VigiBrio is associated with a zone whose lighting can be customised independently via the VigiPool application.

Then choose your lighting atmosphere according to your desires and highlight your pool and your entire garden!

12VAC powered cabinet that allows up to 6 RX3 projectors to be connected

Each unit can be associated with a zone with a maximum of 3 zones.

Several VigiBrio units can be used in the same installation

Add VigiBrio control units and assign them an external zone to control, these will always be tuned.

## VIGIBRIO MAX EXTENSION AVAILABLE

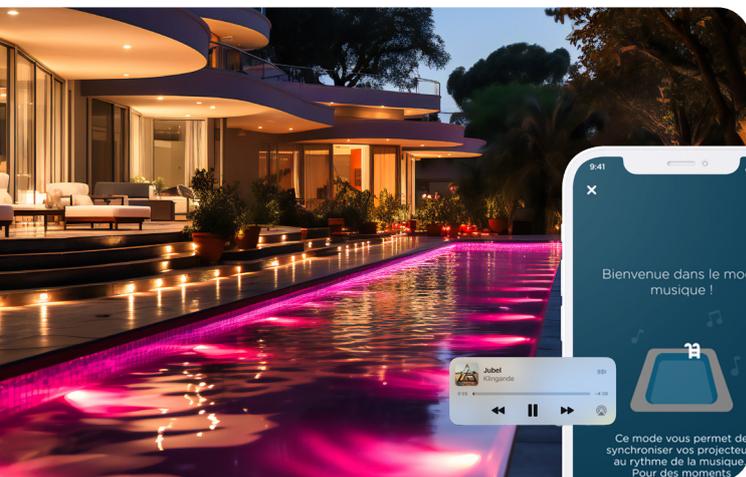

Beyond 100 watts, the VigiBrio Max extension is available as an option

Controls X3 lights up to 300 watts.

Warning: VigiBrio required for use!

## MATCH THE LIGHTING TO THE RHYTHM OF YOUR MUSIC

Synchronise your connected outdoor lighting and watch your favourite music spill from your speakers into your garden in a colourful and dynamic light.

With the VigiBrio controller and its range of projectors, you opt for perfect synchronisation between your projectors and your music!
