

VIGIREDOX

CONNECTED ORP ANALYSER FOR SALT CHLORINATORS

OPTIMISED CHLORINE PRODUCTION

VigiRedox continuously analyses the water's disinfection potential and automatically adjusts the chlorinator's chlorine output to meet the pool's needs, helping maintain optimal water treatment every day.

CONNECT YOUR SALT CHLORINATOR

Make your existing salt chlorinator compatible with the Vigipool ecosystem, without replacing it. Monitor your pool's key parameters and check your equipment directly from the app for easier and more convenient pool management.

PEACE OF MIND ALL YEAR ROUND

Enjoy greater peace of mind with alerts for insufficient disinfection or measurement errors. Its temperature sensor also enables active winterisation management for the salt chlorinator, helping the pool management throughout the seasons.

WHAT IS VIGIPOOL?

Vigipool is a range of products controlled through a single smartphone app, putting your pool's technical room at your fingertips. Manage your pool equipment in one place and control compatible devices connected to your home Wi-Fi from anywhere in the world. With Vigipool, you can access VigiRedox and monitor your pool's technical equipment in real time.

A SCALABLE SOLUTION :

Expand your installation with additional Vigipool-compatible devices to unlock new features in the app, including filtration and LED lighting control.

VIGIPOOL SUPERVISION

With Vigipool Supervision, pool professionals can monitor and manage their entire pool portfolio in real time.

- ✓ Customer pool monitoring
- ✓ Intervention scheduling via interactive map
- ✓ Instant overview of the pool portfolio
- ✓ Alert reception and management
- ✓ Access to pool history
