

# TILD START VP

THE ACCESSIBLE  
SMART BOX

## SMART BOX

tild Start is an electrical control panel that can be fully controlled using a smartphone, and which controls the basic functions of the machine room: the filtration pump, the pool lighting and an auxiliary output.

## INTUITIVE APPLICATION

Set up your box on your Vigipool application! Turn on your projectors and change the colours on your deck chair, and set up your filtration pump in just a few seconds! With your phone, control your pool anywhere!

## COMPLETELY PRE-WIRED

With tild Start, discover a new-generation box that's as easy to connect as a basic electrical box! The box is fully pre-wired so you can enjoy your pool in just a few minutes!

# EVERYDAY COMFORT AND SAVINGS

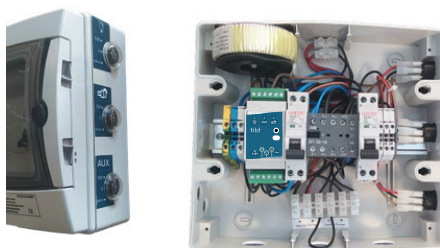

After setting up the parameters, tild Start automatically adjusts the filtration times every day according to the water temperature. As a result, users don't have to go into the machine room to change the filtration times each time the temperature changes. Comfort guaranteed.

## SAVES WEAR AND TEAR AND ELECTRICITY

The temperature-controlled filtration mode means that the filtration pump is not over-used. On a day-to-day basis, this means energy savings and less wear and tear on the pump.

# AN IDEAL BOX FOR A STANDARD SWIMMING POOL

- ✓ **Temperature-controlled filtration** and protection by circuit breaker accessible **from the front panel**
- ✓ **Floodlight power supply** (50VA) and smartphone control
- ✓ **Programmable auxiliary output** for a salt chlorinator controlled by filtration, for example
- ✓ **Simplified connection** and **3 position changeover switches** for each output

**Technical description:**  
 Thermal-magnetic thermal circuit breakers (1 x C16 (filtration) and 1 x C6 (floodlight)) controlled, transformer 230/12V 50VA, 1 auxiliary output (dry contact), 3 x 3-position changeover switches

**FILTRATION PUMP**

**LED PROJECTORS**

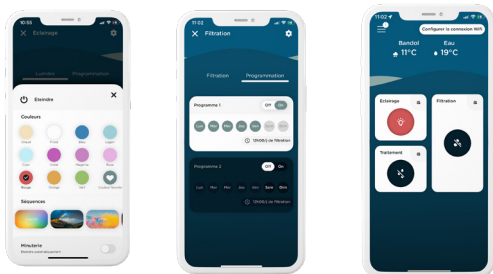

**SMARTPHONE APPLICATION**

**FRONT MOUNTED CIRCUIT BREAKERS**

# AN INTUITIVE AND COMPREHENSIVE APPLICATION

**Vigipool** is your new smartphone application that makes it so **easy** to control your filtration and floodlights! Set up of your appliances and take advantage of automated modes designed for your comfort. Enjoy **total, intuitive control of your projectors** with direct colour selection and dimming.

°C **Filtration adapted to** the water temperature (probe supplied) with management of operating days

💡 **Automatic lighting**, colour and brightness management + weekend mode

➔ **Programmable auxiliary output** for processing equipment, robot, with control parameters

Reference	Model	Supply	Filtration output	Auxiliary output	Projector output	Heat Pump	230V output	Connection
PF10Y705	Tild Start VP ID	230V / 30mA	For pumps up to 7A single-phase (1.5cV)	Up to 10 mA max Piloted by tild	Transfo. 230/12V 50 VA Protected by C6 circuit breaker	D16	C10A	Wifi (local) / Bluetooth®
